## BROADMOOR SIREN PROCEDURE

In the event of the Broadmoor Hospital siren sounding this procedure will be followed:

### Siren Testing:

Siren testing is carried out every Monday at 10am for 2 ½ minutes. After a break of 2½ minutes the all clear siren is also sounded for 2 ½ minutes). No action is required.

- If there is an escape the warning siren will sound continuously.
- All the doors of the gym will be locked.
- Parents on the premises may leave with their children once they have signed to confirm they have done so.
- Children without a parent on the premises will stay in the gym and will not be allowed to leave unless collected by a parent or specified adult.
- In the event that a parent is unable to collect their child, they will be asked to contact the alternative NAMED adult registered with the Club.
- Before being released, children will be asked to identify the adult themselves and the adult will be asked to sign and print their name to confirm they have collected the child.
- If parents are delayed due to traffic build up then children will remain in the care of the coaches and staff at Pinewood.
- All Pinewood staff on the premises will supervise and support the children and/or help in the office.
- This procedure will be followed until the all-clear siren sounds.
